Installation & Setup	1
Wave 0: The Honorable Drifter	2
Wave 1: Full Outlaw Descent	6
Mod Catalog	9
Appendix	26

Foreword

Welcome to *Outlaw Overhaul*, a curated modlist and comprehensive guide for *Red Dead Redemption 2* version 1.32 (the March 19, 2024 patch).

What This Is

This guide is structured as two distinct playthrough “waves”:

- **Wave 0** is designed for first-time or casual players. It recommends only user interface and quality-of-life mods, keeping the vanilla experience intact while polishing rough edges. The accompanying walkthrough helps you master core mechanics.
- **Wave 1** transforms the game with graphics enhancements, additional content, and deeper mechanics. It assumes you have completed the story at least once and are ready for a more challenging, immersive experience.

Compatibility

All mods listed here have been verified against RDR2 version 1.32. We use *Lenny’s Mod Loader (LML)* as the sole modding framework. See the Installation section for detailed setup instructions.

Credits

A full list of mod authors, their mod pages, and acknowledgments can be found in the Mod Catalog.

Disclaimer

Modding carries inherent risks. Always back up your save files and game installation before adding mods. The authors of this guide are not responsible for corrupted saves, crashes, or other issues.

Installation & Setup

Follow these steps to prepare your game for modding. Perform them in order.

Prerequisites

- Red Dead Redemption 2 (version 1.32) — Steam, Rockstar Launcher, or Epic
- 2 GB free disk space for mod files
- Administrative access to your game installation directory

Step 1: Clean Game Installation

Ensure RDR2 is fully updated to version 1.32. Verify the version by checking the game properties in your launcher.

Steam: Library > RDR2 > Properties > Betas > "None"
Rockstar: Settings > RDR2 > Game Details

Step 2: Lenny’s Mod Loader (LML)

Download the latest version of Lenny’s Mod Loader from the official site.

1. Extract the archive to a temporary folder
2. Copy all files into your RDR2 installation root directory (where `RDR2.exe` lives)

RDR2 Installation/

```
|— RDR2.exe
|— version.dll          <- LML file
|— LML/                 <- will be created on first launch
|— lml_mods/            <- your mods go here
```

3. Launch the game once to verify LML installed correctly — you should see an LML notification in the top-left corner

Step 3: Script Hook RDR2

Some gameplay mods require Script Hook RDR2. Download it and place `ScriptHookRDR2.dll` and `ScriptHookRDR2.asi` in the game root directory.

Step 4: Verify Installation

Launch the game and check:

- LML version in the top-left notification
- Script Hook loads without errors (check `ScriptHookRDR2.log` in Documents or game root)

Folder Structure

```
RDR2 Installation/
├─ RDR2.exe
├─ version.dll
├─ ScriptHookRDR2.dll
├─ ScriptHookRDR2.asi
├─ LML/
├─ lml_mods/
│   ├── ModName1/          <- extracted mod folders
│   └─ ModName2/
└─ settings.xml           <- LML config (enable/disable mods here)
```

Removing Mods

To disable a mod, move its folder out of `lml_mods/`. To uninstall LML, remove `version.dll` and the `LML/` folder.

Wave 0: The Honorable Drifter

You step off the train in Colter with nothing but the clothes on your back and a debt to the man who pulled you from the snow. The mountains don't care about your past — only what you do next. Help those who need it, learn the land, and remember: out in the West, a reputation is earned one decision at a time.

Recommended Mods

The following mods enhance the vanilla experience without changing core gameplay. Install them before starting your Wave 0 playthrough.

Mod entries will be added here.

Controls

Controller (Xbox / PlayStation)

Stick / Button	Action
Left stick	Move / Swim
Right stick	Look / Aim
A / Cross	Sprint / Climb / Jump / Horse gallop
B / Circle	Melee / Tackle / Dismount horse
X / Square	Interact / Pick up / Cover
Y / Triangle	Access weapon wheel / Call horse
LT / L2	Aim weapon
RT / R2	Fire weapon / Accelerate horse

LB / L1	Run / Horse brake
RB / R1	Shoulder swap / Horse jump
D-pad Up	Open satchel
D-pad Down	Whistle / Call horse
D-pad Left	Toggle weapon aim mode
D-pad Right	Open item wheel
Right stick (click)	Enter Dead Eye / Eagle Eye
Left stick (click)	Crouch / Stand
View / Back	Open map

Keyboard (PC)

Key	Action
WASD	Move
Mouse	Look / Aim
Left click	Fire / Interact
Right click	Aim down sights
Shift	Sprint / Gallop
Ctrl	Crouch
Space	Jump / Climb / Cover
E	Interact / Pick up
R	Reload / Switch throwable
Q	Shoulder swap
Tab	Weapon wheel
Caps Lock	Run / Horse sprint
F	Melee / Tackle
V	Enter Dead Eye / Eagle Eye
M	Map
B	Satchel
L	Open compendium

How to Play

The Gameplay Loop

RDR2 alternates between story missions and open-world free roam. A typical session looks like:

1. Wake up at camp — check the ledger for upgrades, donate to maintain provisions
2. Check Arthur's satchel — craft or eat if cores are low
3. Pick a story mission (yellow icons on the map), a side mission (white icons), or head into the wilderness to hunt and explore
4. Return to camp or a town to sell loot, rest, save
5. Maintain cores (health, stamina, dead eye) by eating, sleeping, and using tonics

Navigation

- **Waypoint:** Open the map (M / View), set a waypoint, follow the red line on the mini-map

- **Cinematic travel:** Hold the gallop button on a road, then hold the cinematic view button — Arthur auto-rides to the waypoint
- **Fast travel:** Upgrade Dutch's lodging at camp to unlock fast travel from Arthur's bed. Stagecoaches in towns also fast travel between cities

Mission Structure

- **Yellow icons:** Main story — progress the narrative
- **White icons:** Side content — stranger missions, bounties, homesteads
- **Blue icons:** Companion activities — build relationships with gang members, unlock perks
- **Dotted circles:** Random encounters — dynamic events that appear on the map when nearby

Most missions are forgiving but reward clean execution: fewer deaths mean better accuracy stats and higher end-of-mission payouts.

Open-World Activities

- **Hunting & fishing:** Primary income source in the early game
- **Treasure hunting:** Find maps on NPCs or at points of interest — follow the clues for gold bars (\$500 each)
- **Exploration:** The map is filled with cabins, caves, and unique items (cigarette cards, dinosaur bones, rock carvings)
- **Gambling:** Dominoes, poker, and blackjack in towns and camp

Basic Strategy

Combat Fundamentals

- **Use cover:** LT / right-click to snap to cover. Peek and shoot rather than standing in the open
- **Headshots:** One bullet to the head kills most enemies regardless of weapon — prioritize accuracy over volume
- **Weapon selection:** Keep a rifle (bolt-action or Springfield) for range, a repeater (Lancaster) for mid-range, and a sidearm (Schofield or Cattleman) for close quarters
- **Dead Eye in combat:** Pop Dead Eye when outnumbered, paint targets on the nearest threats (usually the ones shooting at you), release to fire. This conserves ammo and health

Beginner Money-Making

Method	Early Access	Payout
Sell perfect pelts to Trapper	Chapter 2	\$2-15 per pelt
Treasure maps	Chapter 2	\$200 per gold bar
Loot enemies	Always	\$2-5 per body
Sell herbs to doctor	Chapter 2	\$2.50-2 each
Bounty hunting	Chapter 2 (Valentine)	\$20-30 per target

Core Mechanics

Dead Eye

Dead Eye is your most powerful tool. It slows time, letting you paint shots on multiple targets. The system unlocks in stages:

- **Chapter 1 (Colter):** Manual painting — tag targets and fire
- **Chapter 2 (Horseshoe Overlook):** Auto-paint on nearby enemies
- **Later chapters:** Critical shots and enhanced duration

Tip: Upgrade Dead Eye by completing story missions and crafting tonics at campfires. *Valerian Root* and *Chewing Tobacco* refill the meter.

Hunting

A reliable source of income and crafting materials.

1. Study an animal with binoculars to learn its quality rating
2. Use the correct weapon for the animal's size (rifle for deer, varmint for rabbits, bow for perfect pelts)
3. Clean kills preserve pelt quality — aim for the head or heart
4. Bring pelts to Pearson at camp or sell to the Trapper

Honor System

Your actions affect Arthur's honor meter, which influences NPC reactions, shop prices, and story outcomes.

Action	Effect
Greeting strangers	1. Honor
Helping strangers	1. Honor
Donating to camp	1. Honor
Robbing/killing innocents	• Honor
Bounty evasion	• Honor

Crafting

- **Pearson (Camp):** Upgrades satchel capacity, camp equipment
- **Trapper (World):** Craft unique outfits and gear from legendary animal parts
- **Campfire:** Cook meat for health/stamina/dead eye buffs; craft ammo, tonics, and throwables

Survival Tips

Core Management

Arthur has three cores: Health, Stamina, Dead Eye. Each has a grey inner ring (current value) and an outer ring (maximum capacity). Keep them full:

- **Eat regularly:** Cooked meat restores all cores. Big game meat (bear, wolf, alligator) provides the best saturation
- **Sleep:** Sleeping at camp or hotels restores all cores and saves the game
- **Tonics:** Potent tonics restore a large chunk instantly — craft them at campfires with ginseng, sage, and other herbs

Horse Care

Your horse is your most important asset. If it dies before bonding level 4, the loss is permanent.

- **Bonding:** Ride, brush, feed, and lead your horse to increase bonding (4 levels). Higher bonding unlocks rearing, drifting, and response whistling
- **Health:** Horse reviver is essential — carry at least one at all times
- **Stamina:** Tap the gallop button rhythmically rather than holding it to conserve stamina. Calm your horse (G / LB) while riding to restore stamina
- **Stabling:** Buy, sell, and manage horses at stables. Your primary horse is stored at camp

Camp Management

Donate money and supplies to the camp ledger. Upgrades unlock fast travel, better provisions, and improved morale. Priority upgrades:

1. **Dutch's lodging:** unlocks fast travel from camp
2. **Medical supplies:** unlocks health tonics and miracle tonics
3. **Leather-working tools:** unlocks improved satchel crafting at Pearson
4. **Chicken coop / milk cow:** steady supply of eggs and milk for gold cores

Chapter Highlights

Chapter 1 — Colter

- Tutorial chapter. Learn movement, shooting, and Dead Eye basics.
- *Tip:* Loot every body for cash and supplies.

Chapter 2 — Horseshoe Overlook

- The world opens up. Explore, hunt, and complete side content.
- *Tip:* Complete the “Money Lending and Other Sins” Strauss missions early — they unlock the camp ledger.

Chapter 3 — Clemens Point

- Mid-game. Gang tensions rise. Focus on camp upgrades.
- *Tip:* Treasure maps found during exploration pay out well.

Chapter 4 — Shady Belle

- Prepare for Chapter 5. Purchase better weapons and upgrade your saddle.

Chapter 5 — Guarma

- Linear story chapter. Minimal free roam. Focus on story missions.

Chapter 6 — Beaver Hollow

- Endgame. Arthur's health declines. Complete all side content and companion requests before the final missions.

Transitioning to Wave 1

Create a separate save file before starting a Wave 1 playthrough. Wave 1 requires a fresh playthrough with new mods — do not add Wave 1 mods to an existing Wave 0 save.

Wave 1: Full Outlaw Descent

You've seen what the law can do. You've played by their rules long enough. Now it's time to write your own. The gangs are fighting, the towns are ripe, and the Frontier is ready for someone ruthless enough to take it. Leave the honor to the grave — an outlaw's legacy is written in wanted posters.

Recommended Mods

Wave 1 mods add graphics enhancements, new content, and deeper mechanics. Install *all* of these on a clean game installation before starting.

Mod entries will be added here.

Expert Combat Strategy

Dead Eye Mastery

- **Manual painting (all chapters):** Enter Dead Eye, paint targets yourself with RB / R1, then release. This lets you choose exactly where each bullet lands — vital for stealth and high-value targets
- **Regen loop:** Pop Dead Eye, paint 3-4 heads, release, immediately drink chewing tobacco, repeat. You can clear a room before the first body hits the floor
- **Snake oil:** Craft Snake Oil (vanilla flower + rum) for dead eye regen without the blurry vision side effect of tonics

Weapon Loadouts

Scenario	Primary	Secondary	Sidearm
Open field	Carcano rifle	Lancaster repeater	Dual Schofields
Close quarters	Pump-action shotgun	Semi-auto pistol	Machete
Stealth	Improved bow	Varmint rifle	Throwing knives
Bounty capture	Bolt-action rifle	Repeater	Lasso + reinforced

Advanced Gunplay

- **Paint it black:** This Dead Eye ability (unlocked level 6, Chapter 4) lets you paint targets anywhere in the reticle, not just on the body. Combine with express ammo for one-shot kills at any range
- **Dual wielding:** Equip two sidearms from the weapon wheel. Fire alternately for double the rate of fire, or fire both at once (hold both triggers) for a devastating burst
- **Ammo types:** Express (more damage), High Velocity (more range, better penetration), Split Point (crafted, best accuracy + damage). Always use Express or Split Point for combat — standard ammo is for practice

Mounted Combat

- **Dead Eye on horseback:** Paint and fire while galloping. The slower your horse, the tighter your reticle
- **Pendulum shot:** Fire at the top of the gallop bounce for maximum accuracy. The game compensates for your movement — lead your target by about one horse length
- **Dismount tactic:** Dismount into cover to turn a running gunfight into an ambush. Your horse will flee a short distance and return when whistled

High-End Economy

Endgame Income Loop

Once you have the Legend of the East satchel (crafted at Pearson with all other satchels — 99 carry capacity on every item):

1. Hunt three perfect cougar pelts (respawning locations near Annesburg/Strawberry) — sell to Trapper for \$60+
2. While waiting for cougar respawn, collect orchids and lady slippers for Algernon Wasp (Chapter 4 side mission) — \$150 per delivery
3. Loot every enemy camp and sell valuables (gold wedding rings, pocket watches, belt buckles) to the fence in Saint Denis
4. Play poker in Saint Denis — \$300 cap per session, save scum for consistent wins

Herbalist Money

Certain herbs are incredibly valuable and plentiful:

Herb	Location	Sell Price	Notes
Ginseng	Forest floors	\$2.50	Common, respawns fast
Sage	Great Plains, New Hanover	\$2.75	Needed for potent tonics
Orchids	Bayou, Bluewater Marsh	\$2.50	Rare, tied to Algernon mission
Oleander	Bayou edges	\$2.00	Toxic — used for poisonous weapons

Advanced Survival

Traversal Efficiency

- **Fast travel network:** In Wave 1 you should unlock all stagecoach stations and train routes early. Combine with camp fast travel for near-instant movement across the map
- **Horse rotation:** Keep 2-3 horses at camp. Use a war horse (Turkoman, Ardennes) for combat zones and a race horse (Arabian, Missouri Fox Trotter) for traversing long distances. Switch at camp or stables
- **Waypoint chaining:** Set a waypoint to the farthest destination, then set intermediate waypoints at stables and fence locations along the route — never backtrack

Weather and Environment

- **Cold weather:** New Hanover and Ambarino drain your health core if Arthur isn't wearing cold-weather gear. Keep a warm outfit (sheepskin jacket, gloves, hat) on your horse
- **Bayou:** Saint Denis and Lagras have high disease risk. Eat cooked food (not raw) and sleep in hotels to reset
- **Night:** Enemies have lower vision at night. Use the cover of darkness for stealth approaches and train robberies

Playstyle Suggestions

The Highwayman

Focus on stagecoach and train robberies. Hit the Cornwall Kerosene & Tar coach outside Valentine for early capital. Graduate to the train tunnel near Riggs Station for an ambush that lawmen can't easily reach. Spend profits on the best horses and weapons — reinvest in crime.

The Land Baron

Live off the land. Hunt legendary animals, craft everything at the Trapper, sell surplus meat and pelts. Invest the proceeds in the camp and stable upgrades. Only engage in story missions when you need a change of pace. *Suggested challenge:* Go 10 in-game days without entering a town.

The Bounty Killer

Target only bounty missions and legendary bounties. Bring every target in alive for double payout + honor gain. Use the reinforced lasso and bounty wagon to transport multiple targets. Build reputation as the most feared bounty hunter in the West — then betray the law when Wave 1's outlaw mods make crime more profitable.

The Collector

100% completion run. Hunt every cigarette card, dinosaur bone, dreamcatcher, rock carving, and grave. Use the compendium to track progress. This playstyle rewards patience and thorough exploration — the game hides its best secrets in the farthest corners of the map.

The Menace

Maximum chaos. Low honor from Chapter 2. Rob every store, hold up every stagecoach, kill witnesses before they report you. Never pay off a bounty — let the bounty hunters come. Fight them for the XP and loot. *Suggested challenge:* Survive a 5-star wanted level in Saint Denis for 5 minutes.

Roleplaying Prompts

- Play through the game without using the mini-map — navigate by road signs, landmarks, and the sun
- Change Arthur's outfit to match the region you're in (cold gear in Ambarino, light clothes in Lemoyne)
- Stay in hotels instead of sleeping at camp when you're "on a job"
- Only save the game at campsites or hotels — no quick-save
- If Arthur dies, drop \$100 from your cash (a "hospital bill")

Save Management

Wave 1 mods change game mechanics. Keep backups:

```
Documents/Rockstar Games/RDR2/Profiles/  
├─ wave0_backup/      <- before Wave 1 install  
├─ wave1_ch2.sav      <- Chapter 2 checkpoint  
├─ wave1_ch4.sav      <- Chapter 4 checkpoint  
└─ wave1_ch6.sav      <- Endgame checkpoint
```

Performance Tuning

Heavy mod loads impact performance. Recommended settings:

- **Resolution:** 1920x1080 or 2560x1440 (not 4K with heavy graphics mods)
- **Texture Quality:** Ultra
- **Reflection Quality:** Medium
- **Water Quality:** Medium
- **Volumetrics:** Low
- **Tree Tessellation:** Off

Mod Catalog

All mods are organized by category and listed alphabetically. Each entry includes the wave it belongs to, dependencies, and compatibility notes.

Graphics

4k Improved Story and Side Characters Wave 1 by *instanity* · Graphics

4K textures for all story and side characters — improved faces, bodies, hair, and beards. Replaces Arthur-focused texture mods (Arthur Redone, Young Clean Arthur).

Deps: Lenny's Mod Loader

Impact: Replaces character textures game-wide. Significant visual uplift for named NPCs.

Install: Extract to lml folder. Do NOT install Arthur Redone or Young Clean Arthur alongside this.

Conflicts: Conflicts with any other character texture replacer (Arthur Redone, Young Clean Arthur).

Best TAA and Visual Effects Wave 1 by — · Graphics

Comprehensive visual overhaul — improved TAA, lighting, weather, water, sky, and foliage. Engine-level fixes that complement Reshade presets.

Deps: Lenny's Mod Loader

Impact: Replaces multiple visual config files. Noticeable sharpness and clarity improvement.

Install: Extract to lml folder. Works alongside Reshade presets.

Increased Geometry Level of Detail Wave 1 by OmDeHoek · Graphics

Pushes geometry LOD distances beyond vanilla limits — objects, buildings, and terrain detail render farther away. Performance cost scales with setting.

Deps: Lenny's Mod Loader

Impact: Increases draw distance for geometric detail. Impact varies by system.

Install: Extract to lml folder. Adjust settings in the included INI if performance is a concern.

Photo-realism Reshade Wave 1 by Anamist · Graphics

Reshade preset targeting photorealistic visuals — balanced color grading, contrast, and sharpening. Works alongside TAA/visual effect mods.

Deps: Reshade (<https://reshade.me>)

Impact: Post-processing only. No game file changes. Toggle on/off with Home key.

Install: Install Reshade, place preset in game folder, select it in Reshade's overlay.

Upscaled Terrain Wave 1 by — · Graphics

AI-upscaled terrain textures — ground, dirt, grass, and rock surfaces at higher resolution. Reduces blurry ground textures.

Deps: Lenny's Mod Loader

Impact: Replaces terrain texture files. Subtle but noticeable ground-level improvement.

Install: Extract to lml folder.

Terrain Textures Overhaul — TTO Wave 1 by nopoPak · Graphics

Complete terrain texture overhaul — replaces all ground, dirt, grass, and rock textures with higher-quality variants. Alternative to Upscaled Terrain.

Deps: Lenny's Mod Loader

Impact: Replaces terrain texture files game-wide. Noticeable visual improvement.

Install: Extract to lml folder. Do NOT install alongside Upscaled Terrain (mod 1860) — pick one.

Conflicts: Conflicts with Upscaled Terrain (mod 1860). Choose one terrain texture mod.

UpscaledAnimals — Large Mammals **Wave 1** by *wickedhorseman* · Graphics

AI-upscaled textures for large animals — bears, elk, bison, moose, horses, and big cats. Install alongside Medium and Small packs for full coverage.

Deps: Lenny's Mod Loader

Impact: Replaces animal texture files. Compatible with the other UpscaledAnimals packs.

Install: Extract to lml folder.

UpscaledAnimals — Medium Mammals **Wave 1** by *wickedhorseman* · Graphics

AI-upscaled textures for medium-sized animals — deer, wolves, coyotes, foxes, boar, and similar.

Deps: Lenny's Mod Loader

Impact: Replaces animal texture files. Install alongside Large and Small packs.

Install: Extract to lml folder.

UpscaledAnimals — Small Mammals **Wave 1** by *wickedhorseman* · Graphics

AI-upscaled textures for small animals — rabbits, raccoons, opossums, badgers, muskrats, and rodents.

Deps: Lenny's Mod Loader

Impact: Replaces animal texture files. Install alongside Large and Medium packs.

Install: Extract to lml folder.

Gameplay

Auto Looting **Wave 1** by *JerryYOJ* · Gameplay

Automatically loots bodies as you walk over them — no more manual looting of every corpse. Configurable to filter what gets picked up.

Deps: ScriptHookRDR2 V2

Impact: Minor QoL script. No balance impact.

Install: Copy .asi to RDR2 root folder.

Contracts Remastered **Wave 1** by *Shtivi* · Gameplay

Expands the contract mission system with new job types, better rewards, and dynamic objectives. Complements Bounty Hunting — Expanded.

Deps: ScriptHookRDR2 V2

Impact: Adds new mission templates and reward tables.

Install: Copy .asi to RDR2 root folder.

Custom First Person FOV Wave 0 by vStar925 · Gameplay

Adds a configurable FOV slider for first-person view. Simple ini tweak for players who want a wider or narrower field of view.

Deps: ScriptHookRDR2 V2

Impact: Camera/FOV adjustment only. No gameplay impact.

Install: Copy .asi to RDR2 root folder. Edit ini to preference.

Duels Wave 1 by Shtivi · Gameplay

Adds a dueling system — challenge NPCs to high-noon standoffs. Authentic western duelling mechanic with tension and quick-draw gameplay.

Deps: ScriptHookRDR2 V2

Impact: Adds new interaction mechanic and mini-game. Core outlaw theme mod.

Install: Copy .asi to RDR2 root folder.

Herbalist Wave 1 by SerjRozov · Gameplay

Expands herbalism — identifies plants, adds foraging mechanics, and deepens the crafting/cooking loop for survival-minded players.

Deps: ScriptHookRDR2 V2

Impact: Adds new interaction systems for plant gathering and crafting.

Install: Copy .asi to RDR2 root folder.

Hunting Grounds Wave 1 by Shtivi · Gameplay

Expands hunting with new mechanics — tracking improvements, bait systems, and dynamic animal population management.

Deps: ScriptHookRDR2 V2

Impact: Adds new hunting gameplay systems.

Install: Copy .asi to RDR2 root folder.

Metal Detector in SP Wave 1 by *Shtivi* · Gameplay

Brings the metal detector and collector role from Red Dead Online to single player. Find buried treasure, collectables, and artifacts.

Deps: ScriptHookRDR2 V2

Impact: Adds new item, tool, and treasure-hunting gameplay loop.

Install: Copy .asi to RDR2 root folder.

No Bounty When Masked Wave 1 by *Shtivi* · Gameplay

If you commit a crime while wearing a mask and no one sees your face, you won't get a bounty. Essential QoL for outlaw playthroughs.

Deps: ScriptHookRDR2 V2

Impact: Changes bounty assignment logic. Makes mask usage meaningful.

Install: Copy .asi to RDR2 root folder.

Portable Dynamite Plunger Wave 1 by *SergeantJoe* · Gameplay

Adds a remote dynamite detonator — plant explosives, take cover, and trigger the blast from a safe distance. Perfect for heists and ambushes.

Deps: ScriptHookRDR2 V2

Impact: Adds new tool and detonation mechanic.

Install: Copy .asi to RDR2 root folder.

Take NPC's Hostage (Rewritten) Wave 1 by *TuffyTown* · Gameplay

Grab NPCs as human shields during standoffs — lawmen and enemies hesitate to fire. Adds hostage negotiation and surrender mechanics.

Deps: ScriptHookRDR2 V2

Impact: Adds new interaction, AI behaviour, and standoff mechanics.

Install: Copy .asi to RDR2 root folder.

Timer 'Message' Bug Fix Wave 0 by *LeDana* · Gameplay

Fixes the timer notification bug where messages stay on screen indefinitely. Small but appreciated UI fix.

Deps: Lenny's Mod Loader

Impact: Minor UI bug fix. No gameplay impact.

Install: Extract to lml folder.

A.E.M (Authentic Euphoria Motions) Wave 1 by VolaticWolf · Gameplay

Overhauls euphoria physics reactions — gunshot impacts, falling, tumbling down hills, and NPC knockdowns feel more realistic and weighty.

Deps: Lenny's Mod Loader

Impact: Changes animation behaviour trees and euphoria parameters. Affects all NPCs and the player.

Install: Extract to lml folder.

Aaron's Ped Accuracy Fix Wave 1 by Aaron · Gameplay

Fixes NPC aiming so they are not comically inaccurate. Makes shootouts require actual cover use. Also adds law dispatch wagons to more towns.

Deps: Lenny's Mod Loader

Impact: Changes NPC accuracy stats and law spawn behaviour. Makes combat significantly more engaging.

Install: Extract to lml folder. Replaces the need for the standalone Ped Accuracy Fix (mod 1045).

Conflicts: Do NOT install alongside Ped Accuracy Fix (mod 1045).

Automatic Greet Replies Wave 1 by PixieV · Gameplay

Arthur automatically responds when NPCs greet him — no button prompt needed. Makes towns feel more alive and social.

Deps: ScriptHookRDR2 V2

Impact: Minor behaviour script. No balance impact.

Install: Copy .asi to RDR2 root folder.

Bounty Hunting — Expanded and Enhanced Wave 1 by — · Gameplay

Massively expands bounty hunting — new bounty types, target variety, dynamic encounters, improved rewards, and deeper tracking mechanics. One of the most popular RDR2 mods.

Deps: ScriptHookRDR2 V2

Impact: Adds new systems layered on top of vanilla bounty hunting. Significant content addition.

Install: Copy .asi to RDR2 root folder. Configure via included INI.

Crime and Law Rebalance and Enhancement Wave 1 by — · Gameplay

Overhauls the wanted, bounty, and law enforcement systems — more realistic witness behaviour, smarter law responses, adjusted bounty costs, and meaningful crime consequences.

Deps: ScriptHookRDR2 V2

Impact: Deep rebalance of crime/law systems. Core outlaw experience mod.

Install: Copy .asi to RDR2 root folder.

Conflicts: Do NOT install alongside Red Dead Realism (mod 2282) — both modify law/crime systems.

First Person Walk Fix Wave 0 by *konstantinos96b* · Gameplay

Fixes the unnatural slow/fast walk toggle in first-person view. Walking speed now matches the animation more consistently.

Deps: None

Impact: Minor animation/input fix. No balance impact.

Install: Copy to RDR2 root folder.

Longer Days Wave 1 by *ItsLimaBean* · Gameplay

Configurable time scale — set how many real-life seconds each in-game minute lasts, separately for day and night. Includes weight retention modifier.

Deps: ScriptHookRDR2 V2

Impact: Changes time passage rate. Configurable via INI. Pauses during missions automatically.

Install: Copy .asi to RDR2 root folder. Edit Longer_Days.ini to preference.

Realistic Loadouts Wave 1 by — · Gameplay

NPCs carry era-appropriate and lore-friendly weapons instead of random loadouts. Lawmen, gang members, and civilians all feel more authentic.

Deps: Lenny's Mod Loader

Impact: Changes NPC weapon assignment tables. Makes combat feel more grounded.

Install: Extract to lml folder.

Stash That Lantern Wave 0 by *PixieV* · Gameplay

Allows Arthur to holster or put away his lantern on command instead of carrying it indefinitely. Small but appreciated QoL tweak.

Deps: Lenny's Mod Loader

Impact: Minor animation/input change. No balance impact.

Install: Extract to lml folder.

UI

Beautiful Dark minimap Wave 0 by *DocDeft* · UI

Replaces the bright minimap with a dark, cleaner version. Easier on the eyes and more immersive.

Deps: Lenny's Mod Loader

Impact: Cosmetic UI replacement only. No gameplay impact.

Install: Extract to lml folder.

Classic Weapon Wheel and Icons Wave 0 by — · UI

Replaces the RDR2 weapon wheel icons with the classic RDR1-style wheel. Aesthetic preference for series veterans.

Deps: Lenny's Mod Loader

Impact: Cosmetic UI replacement only. No gameplay impact.

Install: Extract to lml folder.

Remove Online — Social Club from Landing Screen Menu Wave 0 by

PlayRedThenStayDead · UI

Removes the Online/Social Club options from the main menu. Cleaner start screen for single-player-only players.

Deps: Lenny's Mod Loader

Impact: Cosmetic UI replacement. No gameplay impact.

Install: Extract to lml folder.

Snappy UI (QoL) Wave 0 by wickedhorseman · UI

Speeds up UI transitions — faster menu opening, quicker weapon wheel, and reduced animation delays. Makes the interface feel more responsive.

Deps: Lenny's Mod Loader

Impact: UI speed tweaks. No gameplay impact.

Install: Extract to lml folder.

Audio

Cut Dialogue Restoration and Enhancement Wave 0 by Juliet G · Audio

Restores and enhances dialogue lines that were cut from the final game — ambient NPC chatter, story callbacks, and world-building conversations. Pure content restoration.

Deps: Lenny's Mod Loader

Impact: Adds ambient audio files. No gameplay or balance impact.

Install: Extract to lml folder.

R.W.A.O. (Realistic Weapon Audio Overhaul) Wave 1 by Oakous · Audio

Replaces weapon firing sounds with realistic audio — each gun has a unique, authentic report based on its real-world counterpart. Works alongside GunFX (visual effects) without conflict.

Deps: Lenny's Mod Loader

Impact: Replaces weapon sound files. Audio only, no stat changes.

Install: Extract to lml folder. Compatible with GunFX (mod 1186).

Weapons

1899 Firearms Wave 1 by wickedhorseman · Weapons

Period-correct firearms — black powder vs smokeless cartridge separation, historically accurate performance. Companion mod to GunFX by the same author. Unlike Maverick Weapons, these are balanced and lore-friendly.

Deps: Lenny's Mod Loader

Impact: Changes weapon stats and behaviour. Adds ammo type separation.

Install: Extract to lml folder. Designed to work with GunFX (mod 1186).

Firearm Cosmetics — Carvings and Grips Wave 1 by wickedhorseman · Weapons

Adds custom carving patterns and grip styles for firearms — visual customization only, no stat changes. Compatible with other weapon mods.

Deps: Lenny's Mod Loader

Impact: Replaces weapon model/texture files. Cosmetic only.

Install: Extract to lml folder.

GunFX Wave 1 by wickedhorseman · Weapons

Replaces gunshot visual and audio effects — muzzle flashes, smoke, sparks, and firing sounds are more dramatic and punchy.

Deps: Lenny's Mod Loader

Impact: Replaces weapon effect files. Visual/audio only, no stat changes.

Install: Extract to lml folder.

Maverick Weapons and Catalog Wave 1 by MaVeRicK · Weapons

Adds new weapons (Navy Revolver, Rare Shotgun, scope-less snipers, Nitro Express rounds) and a catalog purchase system. Tagged as unbalanced/cheating on Nexus — some weapons are objectively stronger than vanilla. Recommended for experienced players only.

Deps: ScriptHookRDR2 V2

Impact: Adds new weapon entries and a custom vendor system. Can unbalance early-game progression.

Install: Copy .asi to RDR2 root folder. Wave 1 only — skip if power balance is a concern.

Weapon Texture Upscale Wave 1 by *wickedhorseman* · Weapons

AI-upscaled weapon textures — every gun in the game gets sharper, more detailed surface textures without replacing models.

Deps: Lenny's Mod Loader

Impact: Replaces weapon texture files. No stat changes.

Install: Extract to lml folder. Compatible with Maverick Weapons (mod 850) — test for file overlaps.

Horses

No mods added yet.

Economy

Gold Panning Wave 1 by *Shtivi* · Economy

Adds gold panning at rivers and streams — a new passive income activity. Sift for gold flakes and nuggets to sell. Complements the outlaw economy loop.

Deps: ScriptHookRDR2 V2

Impact: Adds new interaction points and economy activity.

Install: Copy .asi to RDR2 root folder.

Jobs — Expanded and Enhanced Wave 1 by *Shtivi* · Economy

Adds a variety of legal jobs (herding, freight, delivery) for legitimate income. Balances the outlaw economy so players can choose honest work or crime.

Deps: ScriptHookRDR2 V2

Impact: Adds new mission templates and economy interactions.

Install: Copy .asi to RDR2 root folder.

World

Ambient Money Stagecoaches Wave 1 by *Shtivi* · World

Adds drivable and lootable stagecoaches as ambient encounters. Rob stagecoaches for cash and valuables — a core outlaw activity.

Deps: ScriptHookRDR2 V2

Impact: Adds new ambient encounter vehicles and loot interactions.

Install: Copy .asi to RDR2 root folder.

Ambient Gang — RDR Gang Addon Wave 1 by Blackjacks420n · World

Adds RDR1 gangs (Walton Gang, Bollard Twins, Trello Gang, etc.) as ambient encounters, populates hideouts, adds custom gang hideouts, and expands world variety. Gangs can be looted for special ammo.

Deps: Lenny's Mod Loader

Impact: Adds new NPC gangs, hideout locations, and ambient encounter logic. Significant world expansion.

Install: Extract to lml folder. The Colter.ymt file causes issues in Chapter 1 — remove it during story playthrough. Optional New Gang Hideout files require Project NA.

Bandit Hideouts Wave 1 by crossed99 & Gunter Severloh · World

Adds 143 bandit hideouts and 50 ambush points across the entire map, plus roaming bandit posses. Fully configurable via INI — can disable during story missions or remove specific hideout locations.

Deps: ScriptHookRDR2 V2

Impact: Adds persistent bandit camps, ambush encounters, and mounted posses. Major content addition.

Install: Copy to RDR2 root folder. Edit Bandit_Hideouts.ini to disable hideouts at story locations. Can toggle mod on/off with a hotkey.

Conflicts: May conflict with other mods that edit the same map location coordinates. Test with Ambient Gang (mod 822).

Bank Robberies Wave 1 by Unlosing & Jedijosh920 · World

Adds repeatable bank robbery missions to multiple banks across the map. Tagged as Unbalanced on Nexus — each heist pays \$500-\$2000, which can inflate the early-game economy when combined with Crime and Law Rebalance.

Deps: ScriptHookRDR2 V2

Impact: Adds new mission scripts and economy interactions. Can unbalance progression if spammed.

Install: Copy .asi to RDR2 root folder. Pair with Crime and Law Rebalance (mod 569) to add consequence. Wave 1 only.

Open All Interiors Wave 1 by — · World

Unlocks interior doors that are normally locked in free roam — Angelo Bronte's mansion, locked houses, and other inaccessible spaces become explorable.

Deps: Lenny's Mod Loader

Impact: Removes collision/blocking volumes on interior doors. Exploration content only.

Install: Extract to lml folder.

Undead Towns Wave 1 by — · World

Replaces town NPCs with undead/zombie variants. Niche horror-themed mod for players who want a supernatural twist on free roam.

Deps: Lenny's Mod Loader

Impact: Replaces ped models in town spawn tables.

Install: Extract to lml folder. Thematic mod — not recommended for players seeking a grounded Wild West experience.

Camp Anywhere Wave 1 by *crossed99* · World

Set up camp anywhere in the world — not just at designated camp sites. From the same author as Bandit Hideouts. Essential for exploration and survival gameplay.

Deps: ScriptHookRDR2 V2

Impact: Adds dynamic camp placement mechanic.

Install: Copy .asi to RDR2 root folder.

Conflicts: Compatible with Bandit Hideouts (mod 2213) — same author.

Dog Companion Wave 1 by *Shtivi* · World

Adds a loyal dog companion that follows you, alerts you to threats, and can hunt small game. A beloved RDR2 mod.

Deps: ScriptHookRDR2 V2

Impact: Adds companion NPC with AI behaviour.

Install: Copy .asi to RDR2 root folder.

Dynamic Seasons Wave 1 by *bolmin70* · World

Adds changing seasons to the world — foliage colours shift, weather patterns change, and the landscape evolves as time passes. Major immersion upgrade.

Deps: ScriptHookRDR2 V2

Impact: Changes world state based on in-game date. Affects visuals and weather.

Install: Copy .asi to RDR2 root folder. May conflict with other weather/visual mods.

Conflicts: Test with Best TAA and Visual Effects (mod 2188) — may overlap on weather settings.

Immersive Guarma Wave 1 by *MonsieurGremlin* · World

Expands the Guarma chapter with additional content, exploration opportunities, and restored cut features. Makes a brief story segment feel more complete.

Deps: ScriptHookRDR2 V2

Impact: Adds content to the Guarma map area.

Install: Copy .asi to RDR2 root folder.

Project New Austin 1907 — Classic Color Scheme and RDR1 Locations

Wave 1 by *RichardHertz* · World

Overhauls New Austin with classic RDR1-inspired colour grading and restores iconic locations. Massive world enhancement for the post-epilogue map.

Deps: Lenny's Mod Loader

Impact: Replaces map textures, lighting, and location data.

Install: Extract to lml folder. Significant performance impact possible.

Stagecoach Robberies Wave 1 by *Shtivi* · World

Adds interactive stagecoach robbery encounters — stop stagecoaches, threaten drivers, crack safes, and escape with the loot. Core outlaw content.

Deps: ScriptHookRDR2 V2

Impact: Adds new mission scripts and economy interactions.

Install: Copy .asi to RDR2 root folder.

1907 Odd Fellows Rest Wave 1 by — · World

Fixes the broken Odd Fellows building interior in 1907 — restores a landmark incorrectly blocked off in the post-game.

Deps: Lenny's Mod Loader

Impact: Fixes map collision/blocking data.

Install: Extract to lml folder.

Classic Blackwater Police Wave 1 by — · World

Replaces Blackwater police uniforms with a classic period-correct appearance. Small visual upgrade for law in the epilogue.

Deps: Lenny's Mod Loader

Impact: Replaces NPC model textures. Cosmetic only.

Install: Extract to lml folder.

Coot's Chapel In 1907 Wave 1 by — · World

Restores Coot's Chapel as a visitable location in the 1907 epilogue. Small world restoration fix.

Deps: Lenny's Mod Loader

Impact: Fixes map data to make location accessible.

Install: Extract to lml folder.

Fat People Restored Wave 0 by — · World

Restores overweight NPC models suppressed by a vanilla bug. Adds body diversity to the world.

Deps: Lenny's Mod Loader

Impact: Restores NPC model variants. Cosmetic only.

Install: Extract to lml folder.

John Marston — 1907 Wave 1 by — · World

Improves John Marston's appearance in the Epilogue — better face textures, more accurate to his RDR1 look.

Deps: Lenny's Mod Loader

Impact: Replaces John's model and texture files.

Install: Extract to lml folder.

Online Animals Unlocked for SP Wave 1 by — · World

Unlocks animals cut from single player — wolves, bears, panthers, cougars, boars, coyotes, foxes, bison, bucks, and more. Restores full wildlife diversity.

Deps: Lenny's Mod Loader

Impact: Adds animal spawn entries across multiple files.

Install: Download the all-in-one pack from the mod page. Extract to lml folder.

RDR1 Fort Mercer — Redone Wave 1 by — · World

Restores and improves Fort Mercer from RDR1 in the RDR2 map. Landmark restoration for New Austin exploration.

Deps: Lenny's Mod Loader
Impact: Adds map/model data for the fort location.
Install: Extract to lml folder.

Animal Fur Fix Wave 0 by — · Graphics

Fixes broken animal fur rendering — fur on wolves, bears, and other animals displays correctly instead of appearing flat or glitched.

Deps: Lenny's Mod Loader
Impact: Replaces shader/texture files. Visual only.
Install: Extract to lml folder.

Graphics.ytd Crash Fix Wave 0 by — · Graphics

Fixes a crash caused by specific graphics.ytd file configurations. Small stability patch.

Deps: Lenny's Mod Loader
Impact: Replaces a single texture file. No visual impact.
Install: Extract to lml folder.

HD Texture Unlocker Wave 0 by — · Graphics

Unlocks high-resolution textures built into the game but not enabled by default. Free visual upgrade with minimal performance cost.

Deps: Lenny's Mod Loader
Impact: Enables existing HD texture assets. Visual improvement.
Install: Extract to lml folder.

Restored HD Textures Wave 0 by — · Graphics

Restores additional high-resolution textures for world props, clutter, and environmental objects that were downgraded in patches.

Deps: Lenny's Mod Loader
Impact: Replaces texture files with higher-resolution variants.
Install: Extract to lml folder.

RDR2 Performance Booster V2 Wave 0 by — · Graphics

Improves FPS and reduces stuttering through config tweaks and memory optimisations. Works alongside other visual mods.

Deps: Lenny's Mod Loader

Impact: Modifies graphics/engine configuration files.

Install: Extract to lml folder. Adjust settings if the performance gain feels too aggressive.

WOW... That's Beautiful Wave 1 by — · Graphics

Visual enhancement pack — improved lighting, colour grading, and atmospheric effects. Works alongside Reshade and Best TAA.

Deps: Lenny's Mod Loader

Impact: Replaces visual settings files. Affects lighting and atmosphere.

Install: Extract to lml folder. Test compatibility with Best TAA (mod 2188).

Catalogue Improvements Wave 0 by — · UI

Improves the vendor catalogue UI — better item previews, clearer pricing, and smoother navigation.

Deps: Lenny's Mod Loader

Impact: UI replacement. No gameplay impact.

Install: Extract to lml folder.

Train Tracker Wave 0 by — · UI

Adds train arrival times to the map — see when the next train is coming and where it's headed. Simple QoL.

Deps: Lenny's Mod Loader

Impact: UI modification. No gameplay impact.

Install: Extract to lml folder.

Cut Voiceline Restoration Wave 0 by — · Audio

Restores cut voice lines from NPCs — ambient dialogue, mission callbacks, and world chatter removed from the final game.

Deps: Lenny's Mod Loader

Impact: Adds audio files. No gameplay impact.

Install: Extract to lml folder.

Enhanced Disarm and Restored NPC Weapon Pickup Wave 1 by — · Gameplay

Improves the disarm mechanic — more reliable, works in more situations. NPCs can also pick up dropped weapons during combat.

Deps: ScriptHookRDR2 V2

Impact: Changes combat interaction logic.

Install: Copy .asi to RDR2 root folder.

Equine Improvements Wave 0 by — · Gameplay

Fixes horse behaviour — improved responsiveness, better pathfinding, reduced annoying refusal mechanics. QoL for mounted gameplay.

Deps: Lenny's Mod Loader

Impact: Changes horse behaviour/control parameters.

Install: Extract to lml folder.

Euphoria Grabs Wave 1 by — · Gameplay

Applies euphoria physics to grab and throw interactions — NPCs react with realistic weight and balance. Complements A.E.M.

Deps: Lenny's Mod Loader

Impact: Changes animation/euphoria behaviour parameters.

Install: Extract to lml folder.

Fix Social Club Crashes Wave 0 by — · Gameplay

Prevents game crashes caused by Social Club overlay interactions. Simple stability fix.

Deps: Lenny's Mod Loader

Impact: Disables problematic Social Club hooks. No gameplay impact.

Install: Extract to lml folder.

Keyboard Input Lag Fix Wave 0 by — · Gameplay

Fixes keyboard input lag that makes the game feel sluggish. Essential QoL for MKB players.

Deps: Lenny's Mod Loader

Impact: Modifies input handling settings. No gameplay impact.

Install: Extract to lml folder.

No More Persecution Complex Wave 0 by — · Gameplay

Stops NPCs from constantly commenting on the player — no more "It's you!" every time you pass by. Major ambient QoL.

Deps: Lenny's Mod Loader

Impact: Modifies NPC dialogue trigger settings. No balance impact.

Install: Extract to lml folder.

Realistic Cartridges Wave 1 by — · Weapons

Separates ammunition by cartridge type — black powder vs smokeless, period-correct performance. Designed for 1899 Firearms.

Deps: Lenny's Mod Loader

Impact: Changes ammo stats and behaviour tables.

Install: Extract to lml folder. Designed to work with 1899 Firearms (mod 1273).

Appendix

Troubleshooting

Game Crashes on Launch

1. Verify game file integrity in your launcher
2. Remove all files from lml_mods/ — test in vanilla
3. Re-install LML: replace version.dll
4. Check Documents/Rockstar Games/RDR2/Settings/system.xml for corrupted settings

Mods Not Loading

1. Ensure version.dll is in the game root
2. Verify each mod's folder structure matches LML expectations
3. Check LML's log (generated in the LML/ folder)
4. Mods requiring Script Hook won't work without ScriptHookRDR2.dll

Save File Issues

- Disable all mods before loading a vanilla save
- Wave 1 saves are not backward-compatible with Wave 0
- Backup saves before adding or removing mods

Performance Tuning

Setting	Wave 0	Wave 1
Resolution	1440p	1080p
Texture Quality	Ultra	Ultra
Reflection Quality	High	Medium
Water Quality	High	Medium
Volumetric Quality	Medium	Low

Tree Tessellation	On	Off
